

# SingTrue

## Description

SingTrue can teach anybody to sing in perfect tune. Even if you think you're tone deaf!

Worried that you have a bad voice? Always told you're out of tune or off-key when you sing?

Many people think they can't sing because they don't have "natural talent" or weren't born "musically gifted". The surprising truth is that anybody can learn to sing well, even those who feel totally unmusical.

SingTrue helps you discover your inner musicality and gain control over your voice to become a natural, confident, powerful singer.

Early users say:

*"It's as addictive as any game. I wanted to keep going through all the levels."*

*"Really impressed with this app. A step outside the box, a different way of thinking. A portable singing teacher... Awesome!"*

## HOW SINGTRUE WORKS

SingTrue features over 30 interactive exercises that help you learn to sing easily, confidently and in perfect tune. By using the iPhone microphone and sophisticated signal processing, the app analyses your singing and provides personal feedback on how you can improve.

Spend a few minutes practicing with the app's exercises every day and you will rapidly become a capable, confident singer.

If you are already a musician, the app will train your voice and your ears to help you become more confident, more creative, and more musical. In fact, the advanced exercises will help you recognise notes by ear - enabling you to play by ear, write your own music, and improvise freely on your instrument.

The exercises have been designed by experts, in consultation with some of the leading vocal teachers in the world. Building on the success of the RelativePitch ear training app (featured by Apple and used by over 200,000 musicians) and the Tone Deaf Test (4.5-star rated app used by 80,000+ people), SingTrue has been developed to help more people discover their inner voice and naturally become sensational musicians.

## FEATURES

- SingTrue develops your Voice, Ears and Mind for singing
- Uses the iPhone microphone to analyse your singing and gives personal feedback
- Over 30 different exercises to explore, with more coming soon
- Listening examples provided by professional singers
- Track your progress in detail and see your voice improving
- Share your achievements with friends on Facebook, Twitter or Email
- Full iOS8 and iPhone 6/6+ compatibility

## COMMON QUESTIONS

Q: What if I'm tone deaf?

A: Don't worry! You probably aren't. Over 40,000 people have taken our Tone Deaf Test, and just 2% have proved to be genuinely tone deaf. Still worried? Search the App Store for our free "Tone Deaf Test" app.

Q: Is this just for people who like singing?

A: No, SingTrue has been designed for singers and non-singers alike.

Q: Can you really learn to sing in tune?

A: Yes, it's simply a matter of learning pitch sensitivity (ears) and vocal control (voice).

Q: What if I can already sing?

A: SingTrue can help you become more accurate, more expressive and more confident.

Early users say:

*"I found I got more control over my voice. I'm not slurring the note as much as I used to!"*

*"This app is for singers of all levels - musicians looking to improve their musical ear and definitely beginner singers too."*

*"The best thing is the simplicity and the helpful strategies it uses to make you improve quickly."*

SingTrue is available from the iTunes App Store for free!

## Quotes

"Without practice things don't get better. And if you haven't sung for the best part of 15 years since being publicly humiliated in front of the rest of the class, you won't have had much practice at pitching notes accurately. Enter SingTrue: in a word, brilliant!"

-- Music@Monkton Blog <http://musicatmonkton.com/2014/10/16/singtrue-a-brilliant-new-app/>

**From users who tried a pre-release version of the app:**

"The best thing about the app is the clarity of the buttons and instructions. It was as addictive as any game, I wanted to keep going through all the levels!"

"I like the fact that i could monitor my progress and improve on my last effort."

"The app is very well thought out and well guided. It feels very real."

"My favorite part is the simplicity and the helpful strategies it use to make you improve quickly."

"I found I got more control over my voice. I became more accurate when reproducing sounds, not slurring the note as much as I used to."

"This is an app for beginner singers and all musicians looking to improve their musical ear."

"Suitable for anyone who wants to prove their listening skills or wants to prove they're singing in tune"

"Because of its design, I think this is one of the better ear training apps. The large buttons are really helpful and make it easy."

"A real winner."

"I'm really impressed with this app. A step outside the box, a different way of thinking."

"It's a portable singing teacher... Awesome!"

**Comments on PreApps <http://www.preapps.com/new-iphone-apps/singtrue/2244>**

"I already love to sing and this looks like great practice! I'll have to mention it to my choir buddies."

"The more I hear about this , the more I'm looking forwards to it. Preview looks great!"

"Wow, I love the preview; really looking forward to trying the app!"

"Sounds like a fun and exciting app. Looking forward to trying it out!"

"I love the idea of scores & feedback to see how I'm doing & improve! Looking forward to SingTrue."

"I was in various choirs for most of my childhood, but I stopped singing when I got to college. This looks like the perfect tool for me to use to keep myself in tune. I can't wait until this goes live."

"Looks awesome! Can't wait to try it!"
